Help Support Parts for the Future!

Pennsylvania Trolley Museum has been fortunate to acquire many spare parts for our fleet of historic streetcars over the years and provide inside storage for these parts.

Thanks to the help of the Middletown & Hummelstown Railroad (M&H RR), the Friends of Philadelphia Trolleys, other trolley museums, CicKo Transportation, and Alex Paris Contracting, we have acquired Red Arrow "80 car" #83 (left, with restored sister Car 78) as well as many rare spare parts that will be a great help in restoring and maintaining our fleet of historic Philadelphia streetcars. We also recently acquired many parts from PTC/SEPTA sweeper C-121 and PTC/SEPTA PCCs 2095 and 2725. These parts will help us eventually restore and operate Red Arrow Car 83, PRT Standard Car 2282, PTC 8042, and SEPTA PCC 2723. The M&H RR is almost 200 miles away from

PTM and hundreds of hours of volunteer and paid staff time have been devoted to this project over the past year.

We are pleased to announce that all the allocated parts have been relocated to PTM and are safely stored indoors. Most of our costs have been met, but \$4,000.00 still needs to be raised to cover all our costs. Please consider donating to this important project that will help to keep our trolleys running!

Please mail the form below with your payment.

Count me in! I would like to help with PTM's Parts for the Future project.

Name: _____

Address: _____

City: _____ State: _____ ZIP: _____

E-mail: _____ Phone: _____

Donation Amount: \$ _____

Please make your check payable to the Pennsylvania Trolley Museum. Please be sure to mark on your check that your donation is for Car Restoration Fund. To donate online, visit patrolley.org/support. Thank you for your generosity!
